Opening of Ota City Den-enchofu Seseragi Hall

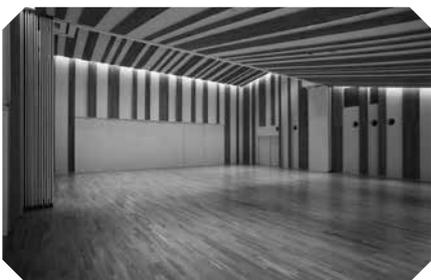

Ota City Den-enchofu Seseragi Park is a space appreciated for its rich natural environment of water and greenery. A new cultural facility named "Ota City Den-enchofu Seseragi Hall" opened there on January 16, 2021.

It was designed by the internationally renowned architect Kengo Kuma based on the concept of "an engawa (veranda for resting) in the forest."

Multi-Purpose Rooms and Meeting Rooms

These rooms can be reserved for learning activities, hobbies (such as music or painting), or events.

Multi-purpose Room 1

Meeting Room

Book Service Corner

Materials in Ota City Libraries can be reserved, received, and returned at the Book Service Corner.

Dog Registration and Rabies Vaccinations

1 If you are a dog owner, you must comply with the following items in accordance with the Rabies Prevention Act.

- (1) If your dog is at least 91 days old, you must register the dog with the mayor and receive a dog license tag within 30 days of the day that your ownership of the dog began.
- (2) Your dog must be vaccinated against rabies once a year. Furthermore, you must submit a vaccination certificate issued by a veterinarian to the mayor and receive a vaccination tag.
- (3) You must make sure that the dog license tag and vaccination tag that were issued by the mayor are worn by your dog at all times.

Dog license tag

Registration fee: 3,000 yen

2021 vaccination tag

Issuance fee: 550 yen

2 Ota City will hold the “2021 Community Rabies Vaccination” program.

When	The 10-day period between Saturday, April 10 and Monday, April 19, 2021	Capacity	All dog owners
Where	Designated veterinary hospitals in Ota City	How to apply	Bring your dog to a veterinary hospital during the program period.
Cost	3,750 yen Covers the rabies vaccination fee (3,200 yen) and vaccination tag issuance fee (550 yen)	Inquiries	Sanitation and Public Health Division ☎ 03-5764-0670 FAX 03-5764-0711

Important requests to all dog owners!

- Be sure that your dog wears its dog license tag and vaccination tag.
- Always clean up after your dog responsibly.
- Have your dog relieve itself before going on a walk.
- Keep your dog securely on a leash whenever you are outdoors.
- Keep your dog securely on a leash whenever you are in a public park.
- Keep your dog out of children’s parks and playgrounds.
- If your dog bites someone, you must report the bite to a Public Health Center.
- Keep a store of necessary dog supplies on hand in preparation for a disaster or other emergency.

Return of Medical Expenses after Loss of Eligibility for National Health Insurance

If you join your company's health insurance scheme or move out of Ota City, be sure to provide notification that you will leave the Ota City National Health Insurance program and return the insurance card that Ota City issued to you.

Joining your employer's health insurance scheme or moving out of Ota City will cause you to lose your eligibility for the Ota City National Health Insurance program from the date that you joined the other scheme or moved. Consequently, you may no longer use the insurance card for the Ota City program.

If you visit a medical facility using the Ota City program's insurance card without eligibility, you will be required to return the portion of the medical expenses that were covered by Ota City (between 70% and 80% of the total medical expense) and personally make a claim for that portion with your new health insurance scheme.

If you will visit a medical facility before your new insurance card is issued, please consult with the health insurance scheme that is processing your card and notify the medical facility that your card is still being processed.

Please Follow the Waste Disposal Rules

Your household produces waste and recyclables every day. But think for a moment. Is it possible you are sorting it incorrectly, even though your intentions are good? Or are you sorting it with only a vague idea of the correct way?

Let's look at some typical examples of waste sorting that is often done incorrectly. Please take a moment to reexamine how you sort and dispose of waste and recyclables.

1

Bulky waste

In general, an item measuring 30 cm or more on a side is considered bulky waste. It is still considered bulky waste even if you break it apart or put it into a bag.

2

Differences in material

The disposal method changes depending on the item's materials and the percentages of those materials. Use the disposal method for the material that comprises the largest part of the item.

Take hangers, for example...

Combustible waste

Hangers largely made of plastic or wood

Noncombustible waste

Hangers largely made of metal

3

Sorting and disposal of bottles

Among recyclables, bottles cause a particularly large amount of confusion. A bottle's disposal method is determined by the substances (both type and amount) that are on it.

With food or drink residue

Juice bottles, etc.

Recyclable waste

- Rinsed and clean

With oily residue

Bottles for cosmetics, cooking oil, etc.

Noncombustible waste

- Not recyclable even if washed

A little attention to your disposal of trash and recyclables will help keep your neighborhood clean and reduce garbage. Please see Ota City's pamphlet titled "How to dispose and separate your waste and recyclable waste" if you have questions about the sorting and disposal of items not mentioned above.

"How to dispose and separate your waste and recyclable waste" is also available in six foreign languages (English, Chinese, Korean, Tagalog, Nepali, and Vietnamese).
