About COVID-19 vaccination certification

The *Certificate of Vaccination for COVID-19* that was attached to your vaccination ticket can be used in Japan as proof that you were vaccinated. For this reason, we recommend that you keep your vaccination ticket in a safe place even after you have been vaccinated.

A "vaccine passport" is a certificate that is issued separately from a vaccination certificate. It is mainly issued to those who plan to travel overseas.

* Please visit Ota City's website for the latest on vaccinations.
